

BELL FENCE
S U P P L Y

WWW.BELLFENCE.COM

The background is a photograph of a black metal fence. The fence has vertical bars and horizontal cross-rails. A thick red line is drawn over the fence, starting from the top left, curving around the fence's corner, and extending downwards. The text is overlaid on a semi-transparent white rectangular area.

M-PAC

TIRED OF THE SAME OLD FENCING OPTIONS?

M-PAC Architectural Fencing Systems offer a modern and unique option to the consumer that achieves both aesthetic appeal and a level of security all at an affordable price. Long regarded as the highest quality fencing available in Europe, Bell Fence Supply has combined German engineering with American creativity to offer a truly outstanding product with endless design possibilities.

FEATURES:

- Aesthetic design for both new and old architecture
- Panels can be adapted to or retrofitted to existing chain link posts and framework
- Offers both mid-level security while at the same time giving great curb appeal
- Unique and different to the current fence options available

BENEFITS:

- Affordability
- Maintenance Free
- Durable rigid construction and easy installation
- Blends in with the existing landscape
